

Heritage Community Garden

The Expert Gardener Certification class is designed as horticultural training for volunteers interested in giving back to their community by investing their time and talents at the Community Garden. How do we give to our community? We raise a large organic garden of fresh fruits, herbs and vegetables that we donate to The Caring Place, Meals on Wheels, FGTT Classes and local Senior Centers.

Georgetown has a Community Garden? Yes it does. Heritage Community Garden is located at 2100 Hutto Rd. Georgetown, TX
